München, September 2017

### Invitation to the Matriculation Ceremony 2017

Dear students,

A new chapter in your life is about to begin. You have received an offer of study from the Technical University of Munich (TUM) and I offer you my congratulations on this achievement. I wish to extend a warm welcome to each and every one of you, the newest members of our TUM community. Over the course of your time with us at TUM, we aim to open up scientific career perspectives for you and to build on your talents. I sincerely hope that your chosen subject and the instruction you receive here meet your expectations, and that the time you spend at our university is both happy and formative – without forgetting, of course, the hard work that it will involve.

To mark the beginning of your studies, I warmly invite you to our traditional **matriculation ceremony**, which will take place **in the outdoor area south of the canteen at Arcisstraße 17 on Monday, October 16<sup>th</sup>, 2017, at 5pm**. Whether you are studying in Munich, Garching or Freising-Weihenstephan, I look forward to welcoming you at this important event, which will also feature musical accompaniment provided by current TUM students. To round off the evening, we will be serving beer from our very own “Bavarian State Brewery Weihenstephan”, the world’s oldest brewery and the only university brewery worldwide.

I very much look forward to seeing you there.

Yours faithfully,

Wolfgang A. Herrmann  
President
