The TUM Campus Straubing for Biotechnology and Sustainability is looking for

2 Student Assistants (m/f/o)

for an IT-Project for teaching management
Flexible start of work
Work location is Munich

Your activities:
• Help to extend an existing PHP / JQuery framework for teaching management
• Depending on interest: merge existing code to state-of-the-art frameworks
• Implement various functions to analyse and aggregate the data returned by DBqueries

You should bring this with you:
• Prior knowledge and experience in both JavaScript and PHP
• Interest in participating in a TUM-wide project
• Flexibility and independent work style

What we can offer you:
• The opportunity to join the team of TUM IT-Management and contribute your own ideas
• Participation in a faculty-wide project of high importance / impact
• Independent and self-reliant work
• Up to 20 hours/week
• Very flexible working hours
• Remuneration according to the standard for student assistants at the TU Munich
• Cooperation in a friendly and uncomplicated team

People who have a disability will received preferential treatment if they are essentially equally qualified.

Dr. Daniela Hutterer will be happy to answer any questions you may have.

We look forward to receiving your application with a short letter of motivation, curriculum vitae and the relevant certificates. Please send your application documents by 2024/01/22 in PDF format by e-mail to Dr. Daniela Hutterer (daniela.hutterer@tum.de).

Note on data protection:

As part of your application for a position at the Technical University of Munich (TUM), you provide personal data. Please note our data protection information pursuant to Art. 13 Data Protection Basic Regulation (DSGVO) on the collection and processing of personal data in connection with your application. By submitting your application, you confirm that you have taken note of the TUM's data protection information.
